Wyatt Academy Weekly

Dear Wyatt Families,

Just a few short weeks of the 2015-2016 school year left. As my leadership of Wyatt draws to a close, I cannot tell you how excited I am to take part in all of the end of the year events. These events provide a great setting and opportunity for our community to strengthen our bond and develop relationships with the newest members of our school team. I look forward to introducing Wes Frakes to those of you who have not met him yet and building a rally of support for our 2016-2017 team.

Science Night

Next Thursday, May 19th, Wyatt will hold its annual Science Night. In the Twenty-First Century, Wyatt will scholars face an increasingly competitive world where competencies in Math and Science are as essential as Reading. Wyatt looks forward to seeing the brainpower and higher level thinking at work next week. Let's have a massive show of support to our scholars by attending Science Night and celebrating their learning.

Gratitude for 'Lion King'

I cannot say enough about how proud I am of our community. Seeing over 500 people come to Wyatt last week to witness the extravagant phenomena called 'Lion King'. Thank you, thank you, to our families for showing such amazing support of our scholars and school. Thank you also to our amazing scholar and teacher actors, and to Brandon Joseph for bringing this event to Wyatt.

I am so excited to invite you to all of the AMAZING events that we have coming up this month.

Wednesday, June 1

Field Day

Thursday, June 2

- 8:30 – Kinder Continuation
- 2:00 – 5th Grade Continuation
